The challenges faced by our youth have intensified and parenting must evolve. Christian parents are called to provide not just love and support but also guidance that helps children understand their value as God's creation, which will help establish a genuine relationship with Jesus. By equipping our children with God's love, we can better prepare them to face the challenges of a world that often feels overwhelming. The goal is to guide our children toward a deeper understanding of their identity in Christ. This will lead them to see themselves as valued and loved, regardless of social pressures or online influences. This class will be conducted by a diverse group of teachers, each with unique expertise, to provide valuable resources for parents and families.
